Good afternoon,

I wanted to check in to see if a response had been received or if there had been any additional updates I should be aware of.

Thanks,
Brandon

Brandon,

The original BIA determination sent to Ms. Zizi Searless, EPA, was questioned; therefore, this office has requested additional verification of land status for Section 13, T13N, R11W, from BLM and awaiting a response.

Ms. Searles, EPA, will be informed accordingly.

Thank you.

Good Morning,

I wanted to follow up on the progress for access to Section 13. This is the final access step for the TCRA implementation as we have already obtained access to Section 18. The USEPA has been inquiring recently about progress. Also, would it be beneficial to have Lester Tsosie help facilitate the Section 13 access as he had done with Section 18? Let me know if you need any additional information from me.

Thanks again,

Brandon

Good Morning,

Following our meeting from several weeks ago the BIA Superintendent approved access to the adjacent section and access to Section 13 is all what remains for us to be able to get into the field implementation. I received a call from George Padilla last week but am still a bit unclear of what is still needed. Does she need anything from us? Do you have all you need from us in order to review access to Section 13 or are you waiting on me for anything else? Whenever possible, please let me know where we stand in the process.

Thanks again,

Brandon

Hi Fern,

We had an onsite meeting recently for the Haystack AUM project and Lester Tsosie and Jerry DeGroat were able to attend which is great. Part of the follow up to the meeting was to check back in with you to confirm you had received the letter that was included in my email from a few weeks ago and if you had any updates on the process. Please keep me posted and thanks again.

Brandon

Hi Fern,

Just checking to see if you had received my original email and if you had any questions.

Thanks again,

Brandon

Hi Fern,

I wanted to double check that my original email had gone through since I had not heard back from you. Please let me know if you have received my previous email and let me know if you have any questions.

Thanks again for you time.

Brandon

Subject: Haystack AUM Removal Work Plan and Access Request

Hi Fern,

As we discussed last week, please find the attached document for review containing the access request letter, the Removal Work Plan and an example letter (Attachment 2 in the document). The example letter is included just to help you out (we used what had previously been given to the EPA and modified it to fit our current work). It is not meant to be interpreted as directing what you need to do but rather a starting point to see if the language is agreeable or not.

Please review and let us know if you have any questions or concerns. Also, please respond confirming that you received the email and attachment.

Thank you for your time,

Brandon
